

Landfill Waste Restriction Reminder

Thank you for choosing Rumpke Waste & Recycling. We are pleased to be your service provider. Since our early beginnings, more than 80 years ago, our mission has not only been to provide the best hauling, waste and recycling services possible, but also to do so with safety, environmental protection and compliance in mind.

To reach this objective we are constantly cooperating with local, state and federal regulators to adhere to any adjustments to laws and regulations and to educate our clients to assure their compliance as well.

As a useful reminder, we have included below a complete list of landfill restrictions and waste generator responsibilities. Please review them once again and keep them in mind. As always, you may call us with specific questions. Rumpke is glad to assist with all of your waste solution needs.

Rumpke Landfill Waste Restrictions

Applicable Federal, State and Local laws require that you (the waste generator) dispose of your waste materials appropriately, and you will remain responsible for these materials if they are not disposed of properly. Municipal Solid Waste Landfills, such as Rumpke's are not permitted to accept and dispose of certain types of materials, including hazardous wastes.

None of the following materials may be sent to Rumpke for disposal:

- Hazardous wastes
- Liquids (may be solidified, but require prior approval)
- Corrosive, flammable, reactive, explosive, toxic, or otherwise hazardous materials
- Lead acid batteries
- Whole tires
- Medical/infectious/biohazard waste
- Any listed wastes in Title 40 Code of Federal Regulations part 261
- PCB waste 50 ppm or above
- Appliances containing refrigerant
- Pesticides, herbicides, and fertilizers
- Radioactive waste
- Fluorescent lamps and ballasts

Other types of materials may or may not be appropriate for disposal in a Municipal Solid Waste Landfill, depending on their specific characteristics. The following material types require prior approval by Rumpke.

- Manufacturing/process waste—sludge, sand, dust, filters, shot blast, various paint wastes
- Rags, absorbent, and other materials impacted with paint, cleaners, or chemicals
- Spill cleanup materials
- Obsolete chemicals/products
- Dirt/soil and contaminated dirt/soil
- Batteries
- Electronics including computers and monitors
- Solidified liquids
- Empty containers including drums, tanks, 5-gallon pails, aerosol cans
- PCB waste lower than 50 ppm
- Asbestos
- Appliances with refrigerant removed
